

INTRODUCING NEW CONSULTANTS | NEW WEBSITE

Expansion of Services

www.nationalleadership.net

We are excited to announce an expansion of services and the introduction of our experienced team of consultants. We have launched our new website (www.nationalleadership.net), which provides background information on the services available through the National Center and our consultants.

The National Center was founded in 2008, with the vision for developing and connecting a high-performing cadre of outstanding leaders as consultants to address the unique needs of our clients. Our focus is to provide services that address the specific needs of our clients. We customize our services, as we have conversations with our clients.

The Center's Team of Consultants provides professional services in a wide range of areas including **Board Governance, Strategic Plan Development, Advisory/Coaching Services** (for Superintendents, Leadership Teams, Principals, Executive Assistants, and others in the organization), **Leadership Development, Team Building, Human Resources, Special Education, and Collective Bargaining.**

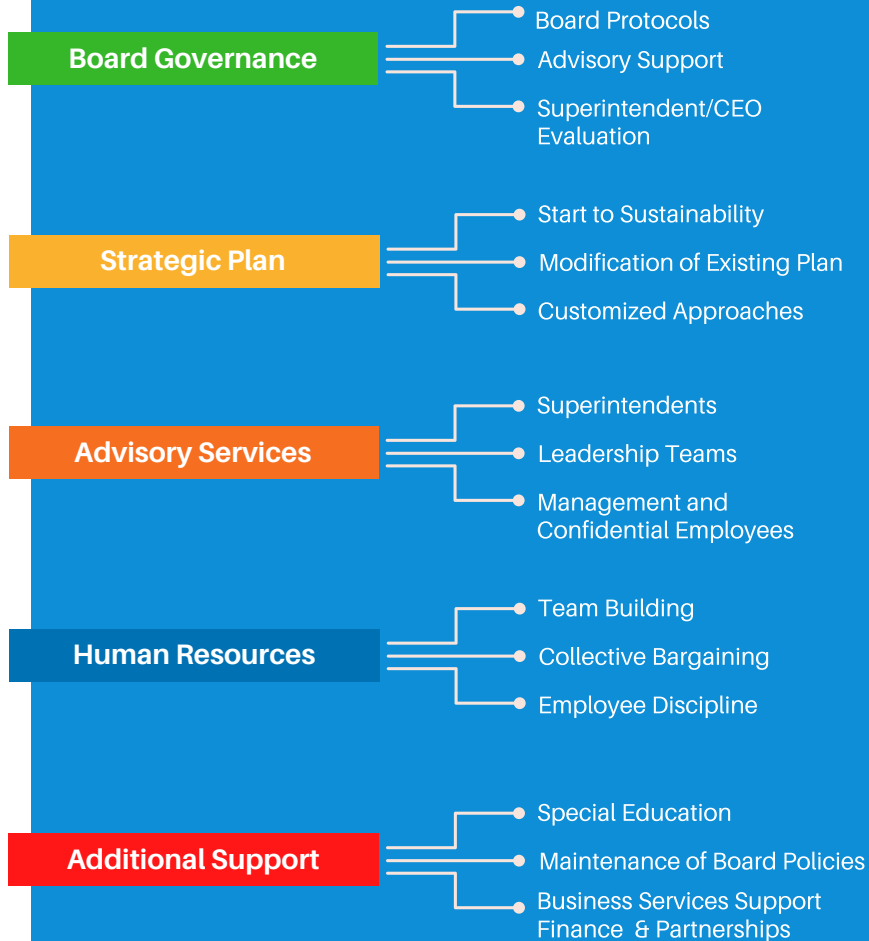

Our cadre of consultants are highly recognized leaders and presenters. We are continuing to expand our cadre and we are proud to present background information and services provided by each of the consultants on our new website.

Biographical information on each consultant is available at www.nationalleadership.net/consultants.

Thank you for your consideration. If you are interested in joining the National Center Team or have questions and are in need of support, please call me at 209-765-4818 or email me at whanline@nationalleadership.net.
